Founder, Design Lab Vyoma

Design Lab Vyoma is a Mumbai based, multi-disciplinary Architectural interior firm founded by Vyoma Patwa, which believes in creating holistic spaces not only true to its context but also to its functionality and end users. "We thrive to achieve spaces which besides articulating carefully at micro levels of details, finishing & functionality, also deeply looks at the macro levels of overall site context, condition and its natural surroundings and built form.

Vyoma calls it 'The Curio House' and the reason is obvious the moment you step in. The owner is a collector of sorts. And the home is designed or rather tailored to provide a fitting showcase to his curated collection of art and artifacts.

Contemporary interiors are carefully curated to compliment these pieces, which are seamlessly bought together, forming the DNA of the space. These pieces are collectables from different corners of the world, showcasing some brilliant craftsmanship to the only surviving ancient traditional folk art paintings. While some being unique & fun memorabilia & souvenirs from the clients travel dairies. A Traditional African cultural artwork called Kitengela Glass (which means hot glass that love the sun), is seen in the form of the beautiful handmade hanging glass artifact by the window. The shelf in the dining room has over 100 artefacts standing testimony to the owner's many travels.

WE CREATED A LUXURIOUS YET SOOTHING HOME WITH DESIGN THAT OPTIMISES THE USE OF SPACE. EACH ROOM HAS ITS OWN UNIQUE STYLE REFLECTING THE PERSONALITIES OF THE OWNERS.

While the master bedroom is done up in a mature finish of natural teak wood battens, concrete and stone, along with accent brass inlays on wardrobe & paintings, the other two rooms meant for their two teenage daughters, is completed in fun contemporary hues of mint green & royal blue.
